## Executive Summary

The "la Caixa" Foundation (hereinafter, "LCF") launched its CaixaImpulse Programme in 2015. Its first initiative, the CaixaImpulse Call, has supported leading biomedical research Projects and researchers boost their innovation potential through valorisation and training actions.

To this end, the now called CaixaImpulse Validate Call (hereinafter, the "Call") is continuing this task within the **CaixaImpulse** programme, with the collaboration of Caixa Capital Risc and the support of EIT Health (European Institute of Technology) . The CaixaImpulse Validate Call wishes **to support society-relevant Life Sciences**, early stage Projects. This Call will offer financial support and a structured Accompaniment Programme to help participants to perform valorisation activities.

The Call will consider applications for Projects led by European public or non-profit **legal entities** (universities, research centres, hospitals) **that own or co-own the assets** resulting from the research activity.

The evaluation process will be composed of two steps. (1) The application will be assessed by a board of remote peer reviewers; (2) Pre-selected applications will then be invited to perform a personal interview in front of a Selection Panel.

The Call will provide financial support of up to EUR 100,000 for a maximum of 24 months. Besides financial support, the Call offers to the projects a structured training, mentorship and consultancy support for 8 months.

Once the Projects achieve specific indicators, financial support will be reimbursed to LCBF to ensure the sustainability of the programme.

## Preamble

Throughout history, scientific research has provided many answers to issues and problems encountered by people and society. Now, more than ever, science is a key factor in both human progress and in collective competitiveness and well-being.

The "la Caixa" Foundation, in its commitment to contribute to the progress of people and society, has a main line of action that supports research in life and health sciences and the transfer of the knowledge created, the aim being to apply such directly to society.

With the CaixaImpulse Programme, and its Validate and Consolidate Calls, the "la Caixa" Foundation (the "LCF") aims to develop a point of reference programme by integrating their research support activity, market knowledge and ability to drive the future development of businesses. The objective being to generate a favourable environment for adding value to scientific knowledge created by research and innovation centres and to contribute to its transfer to the market. More specifically, the CaixaImpulse Validate Call (the "Call") aims to support university and research projects that seek to transfer a protected or protectable asset resulting from research and innovation, and, whether by means of a spin-off, a transfer agreement, or any other suitable option, to exploit and commercialise Asset/s that require the validation and development of their value generation proposal.

The projects selected will be provided with a grant (the "Valorisation Grant") so that they can define and implement actions for the development of their Asset's valorisation proposal. We understand as Valorisation the process of value-creation out of knowledge, by making this knowledge suitable and available for economic or societal utilisation and to translate this into high-potential products, services, processes and industrial activity ("Valorisation").

In addition to this grant, participating projects will benefit from resources to help them develop and assess their Valorisation Plan, which includes training, mentoring activities, expert advice, and networking activities with industry, investors, and other relevant contacts (the "Accompaniment Programme").

Those interested in participating in the Call must submit their application in accordance with the requirements established in these rules for participation (the "Rules for Participation").

The CaixaImpulse Validate Call is developed with the collaboration of Caixa Capital Risk ("CCR"), the venture capital arm of Criteria Caixa that invests in innovative companies in

their early stages and supports their growth through different specialized vehicles in Healthcare/Life sciences, TIME and Industrial Technology. In addition to the investment activity, the company has been involved in the creation and development of the CaixaImpulse Validate Call and other initiatives to support entrepreneurs and business creation.

The CaixaImpulse Validate Call is also supported by EIT Health. EIT Health is a consortium of companies, universities, and research centres committed to promote innovation in Europe in the fields of biomedicine and health. EIT Health funds new projects or activities that add value to projects already established with the aim of promoting healthy living and active ageing.

## A. Rules for Participation

### 1

#### Aims

##### Aims

**1.1.** With CaixaImpulse Validate Call (the “Call”), LCF aims to promote the creation of services, products, or businesses in the area of Life Sciences through the transformation of scientific knowledge into services, products, or businesses that create value for society, reducing existing barriers and facilitating access to markets, contacts, and key knowledge.

##### Supported Projects

**1.2.** The Call seeks to support projects from university and/or research centres (the “Centres”), led by university graduates, professors and doctors and developed by research teams, that wish to transfer to the market a protected or protectable asset resulting from scientific research (the “Asset/s”). This is accomplished by means of a Spin-off Company, a technology transfer agreement, or any other suitable option, to exploit and commercialize the Asset/s (as explained in more detail below) and that require the validation and development of their value generation proposal (the “Project”).

**1.3.** The Programme will support up to 20 Projects from the field of Life Sciences proposed by the Centres, based on Asset/s.

### 2

## Eligibility criteria

## Eligible Projects

4.1 Eligible Projects must be from the Life Sciences field, following the Life Sciences categorisation of the [European Research Council](#) Peer Review Evaluation Panels for reference:

4.2 The following Projects are not eligible for this Call for proposals:

- » Projects involving for-profit entities (for the sake of clarity, both the Beneficiaries and, if applicable, the entities in consortium have to be public or non-profit organizations).
- » Projects related to and/or involving Asset/s co-owned by for-profit organizations or aimed for commercial use and exploitation of such Asset/s. LCF shall hold the right to declare a Project as non-eligible if the ownership of the assets is not majority-owned by the Beneficiary and/or non-profit institutions (i.e. the Beneficiary, either by itself or together with other non-profit institutions must own more than 50% of each Asset).

## Beneficiary

4.3 The Beneficiary shall be a **public or non-profit organization**, which may include universities and university foundations, research centres, technology centres, hospitals and hospital foundations (each also referred to as a “Centre”) owning or co-owning the Asset/s and the main activity of which is located and/or registered in eligible Horizon Europe Regions. The Beneficiary will be responsible for submitting the application form.

4.4 A single Centre may submit more than one application provided that they relate to different Asset/s resulting from different research projects.

4.5 Projects may be submitted by a **consortium** of Centres from all Horizon Europe Regions, as long as they are led and represented by the Beneficiary that owns or co-owns the Asset/s. In case of consortium, all stakeholders must abide by the eligibility criteria. The Beneficiary will be awarded a grant for the Project, which will be managed according to the conditions established within these Rules for Participation.

4.6 In all cases, Centres (and also all stakeholders involved in the case of co-owned Asset/s or Projects in consortium) will be required to agree and accept the Rules of Participation.

4.7 The Beneficiary will appoint the Project Leader and the Transfer Team Representative to participate in the Call.

## Project Leader

4.8 The Project Leader shall be an individual with post-secondary school qualifications (university graduate, professor or doctor) linked to the Beneficiary having participated in the team responsible for the development of the Asset. The Project Leader **may not be the leader of the research Project** (i.e. principal investigator) that generates the Asset/s.

4.9 Project Leader **will lead the Valorisation Project** and the development of the actions approved in the Valorisation Plan. The Project Leader must be **fully committed to the Project**. The project Leader must attend most of the activities developed in the framework of the programme.

This will be done by an online check by the Organization Manager on LCF's call management online system. In case of projects including Co-owners of Assets and/or consortia, all Co-owners and Consortium Partners will be required to provide their acceptance through the above-mentioned online system for the submission of the application. All acceptances are required to be made before the deadline for applications.

It is recommended that invitations for acceptance are not sent until the general data and proposal information, and the composition of the consortia (where applicable), are filled in, as changes to this information/composition will require the re-approval of all other members in the proposal.

The Organization Manager will have access to the information of the applications, including without limitation the budget, the composition of the consortium (where applicable), and the evaluation report.

## Transfer Team Representative

4.11 A Transfer Team Representative must be appointed by the Beneficiary and must be different to the Project Leader. The Transfer Team Representative shall be an individual and may be a member of the transfer office of the Beneficiary or Consortium Partner as long as it is directly involved in the Project.

4.12 Although not mandatory, it is advisable for the Transfer Team Representative to attend the Call's activities.

## 5

- » **Consumables and materials** for experiments or tests.

**7.5** The following items are specifically **excluded** from the Grant:

### Expert Advice Programme

7.15 The Expert Advice Programme offers an expert advisors directory in different fields of knowledge from both public and private organisations in order to assist participants in specific queries that will emerge while developing and executing their Valorisation and commercialisation/business Plans. The Expert Advice Programme is guided by experts in different areas of specialisation, who will advise the Project Leader and provide support in defining, optimising, and developing the Project and the Valorisation and Commercialisation/Business Plans.

7.16 The Expert Advice Programme Directory is an optional tool made available to the Project Leader.

7.17 Unjustified attendance to meetings (either of the Training, Mentoring and/or the Expert Advice Programmes) is deemed a serious breach of these Rules for Participation and may entail early termination of the participation in the Programme, including the Valorisation Grant, in accordance with the provisions of Section 16.

- » **Lump-sum payment for the Transfer of the Asset/s by the Beneficiary:** The Beneficiary will reimburse to LCBF any lump-sum payment for the Transfer of the Asset(s) up to the whole amount of the Valorisation Grant, less the payment made by Beneficiary as a result of any recurrent payment or sale of shares as referred to above.

**11.4** Should the exploitation of the Asset/s be carried out through means not foreseen in the aforementioned paragraphs, all parties involved will make their best efforts to agree on an equivalent form of reimbursement.

**11.5** The reimbursement of the Valorisation Grant shall be carried out by the owner of the Asset/s if and when LCBF chooses to exercise the aforementioned rights to reimbursements. If there are several Co-owners, all of them will be jointly and severally obligated to return the Valorisation Grant to LCBF.

## Reimbursement term

**11.6** LCBF's right to the reimbursement of the awarded Grant as provided above will terminate after twenty (20) years from the signature of the Project Agreement, provided that, if the reimbursement had started during the last four (4) years of the referred term, the right will continue in force for an additional term of five (5) years from the reimbursement.

## Non-reimbursement

**11.7** The obligation to reimburse the Valorisation Grant shall not apply when the owners of the Asset/s can prove, to the entire satisfaction of LCBF, the impossibility and/or inability to exploit the Asset/s due to circumstances beyond their control during the period of protection of the rights over the Asset/s.

## Compatibility with CaixaImpulse Consolidate

**11.8** Should the Project (or a derivation thereof) were included in an application to the Consolidate Call of CaixaImpulse and became awarded under such Consolidate Call, the Parties hereby declare and acknowledge that (i) the rules for participation of the CaixaImpulse Consolidate Call will not supersede or modify in any way these Rules for Participation or any agreement signed as a consequence thereof; and (ii) these Rules for Participation will not supersede or modify in any way the rules for participation of the Consolidate Call or any agreement signed as a consequence thereof. Therefore, the terms and conditions established therein shall remain fully in force.

For the avoidance of doubt, and without limitation, the reimbursement rules of the Valorisation Grant established in these Rules for Participation shall remain in full force in case a new grant is awarded under the Caixaimpulse Consolidate Call.

For the sake of clarity, the free-of-charge right to subscribe up to the 1% of the shares of the Spin-off Company shall not accumulate in terms of percentage; i.e. the right will exist under both calls but up to a maximum of 1% of shares.

**11.10** Potential applicants for this Call will not be allowed to apply to this Call in the event (i) they apply at the same time to this Call and CaixaImpulse Consolidate Call; or (ii) if the Project has already been awarded with prior financing by the Caixaimpulse Consolidate Call.

**12.1** If the exploitation of the Asset/s is to be carried out by means of the incorporation of a Spin-off Company, **LCF or any entity within the Criteria Group**, at the discretion of the Criteria Group, **shall have the free-of-charge right to subscribe up to 1% of the shares of the Spin-off Company** at nominal value upon its incorporation or within three months thereof.

**12.2** The Beneficiary shall ensure, once the Spin-off has been incorporated, that the Spin-off and its shareholders are first aware of, and expressly acknowledge and agree to, the rights granted to LCF or any entity within the Criteria Group in accordance to the foregoing and adhere, where applicable, to the obligations derived from these Rules for Participation. This provision shall also be deemed to apply to the reimbursement described in Clause 11 above, where applicable.
