Práctica 10

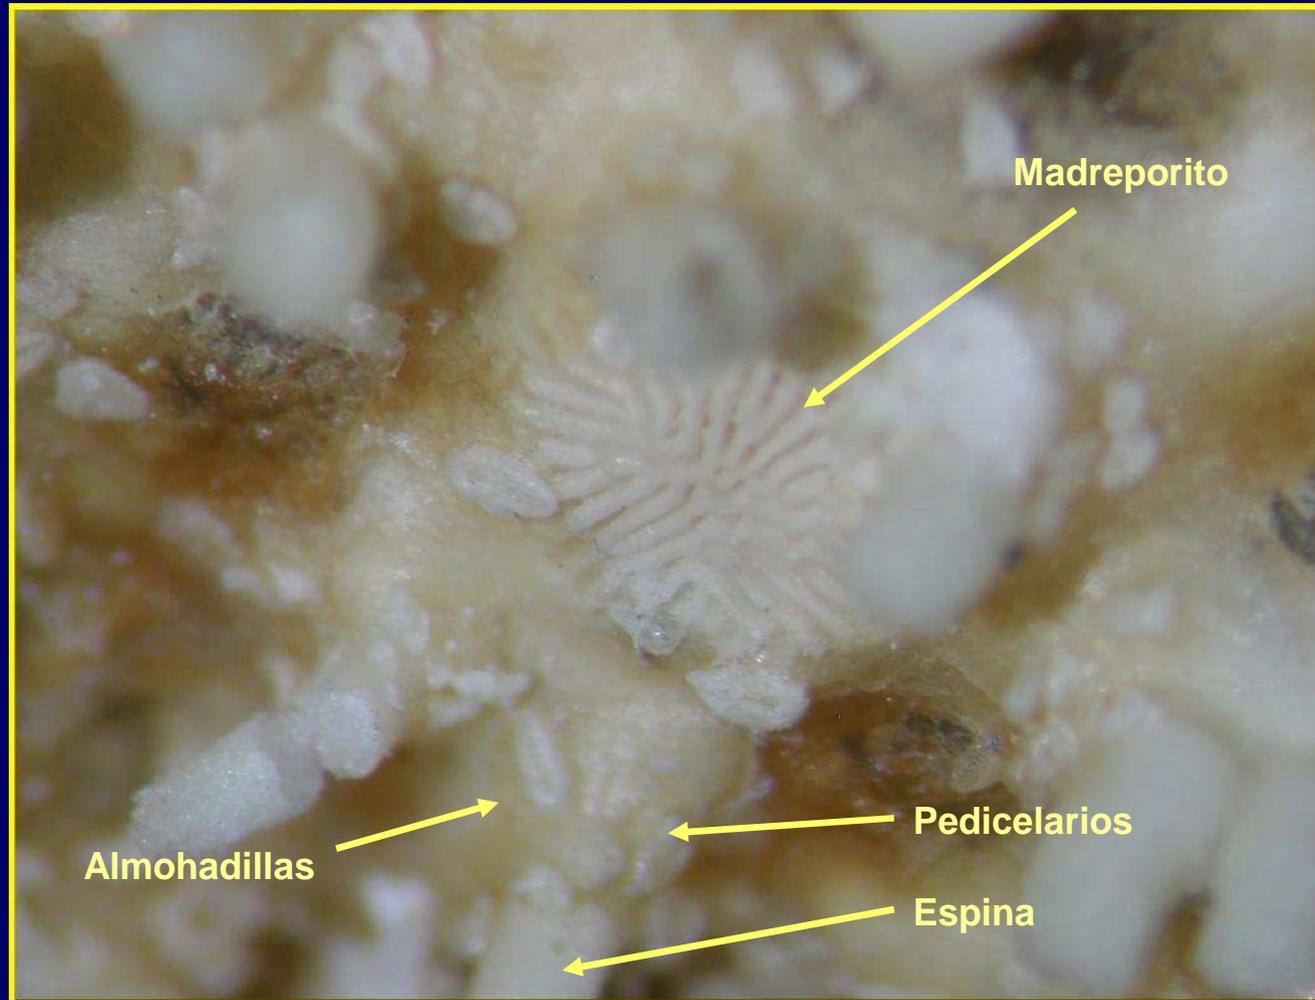

Estudio morfoanatómico de Equinodermos

(Guía visual de las Prácticas de Zoología)

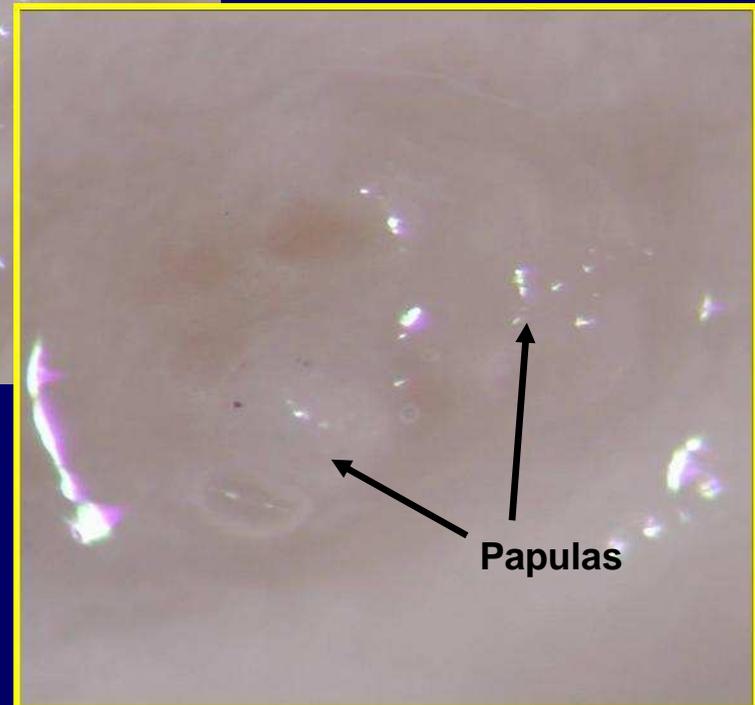

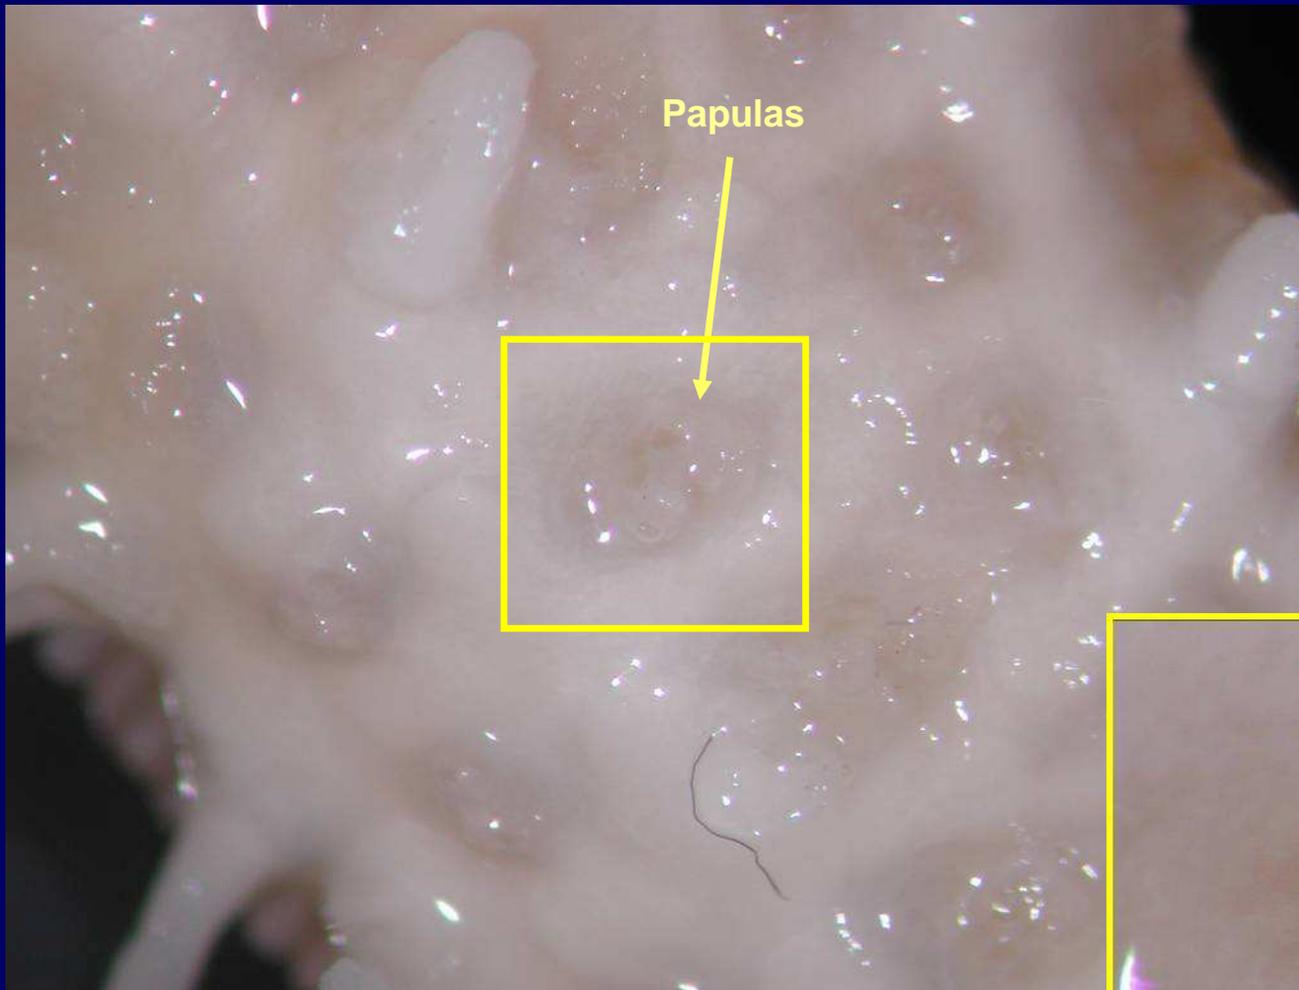

MD García, MI Arnaldos y JJ Presa

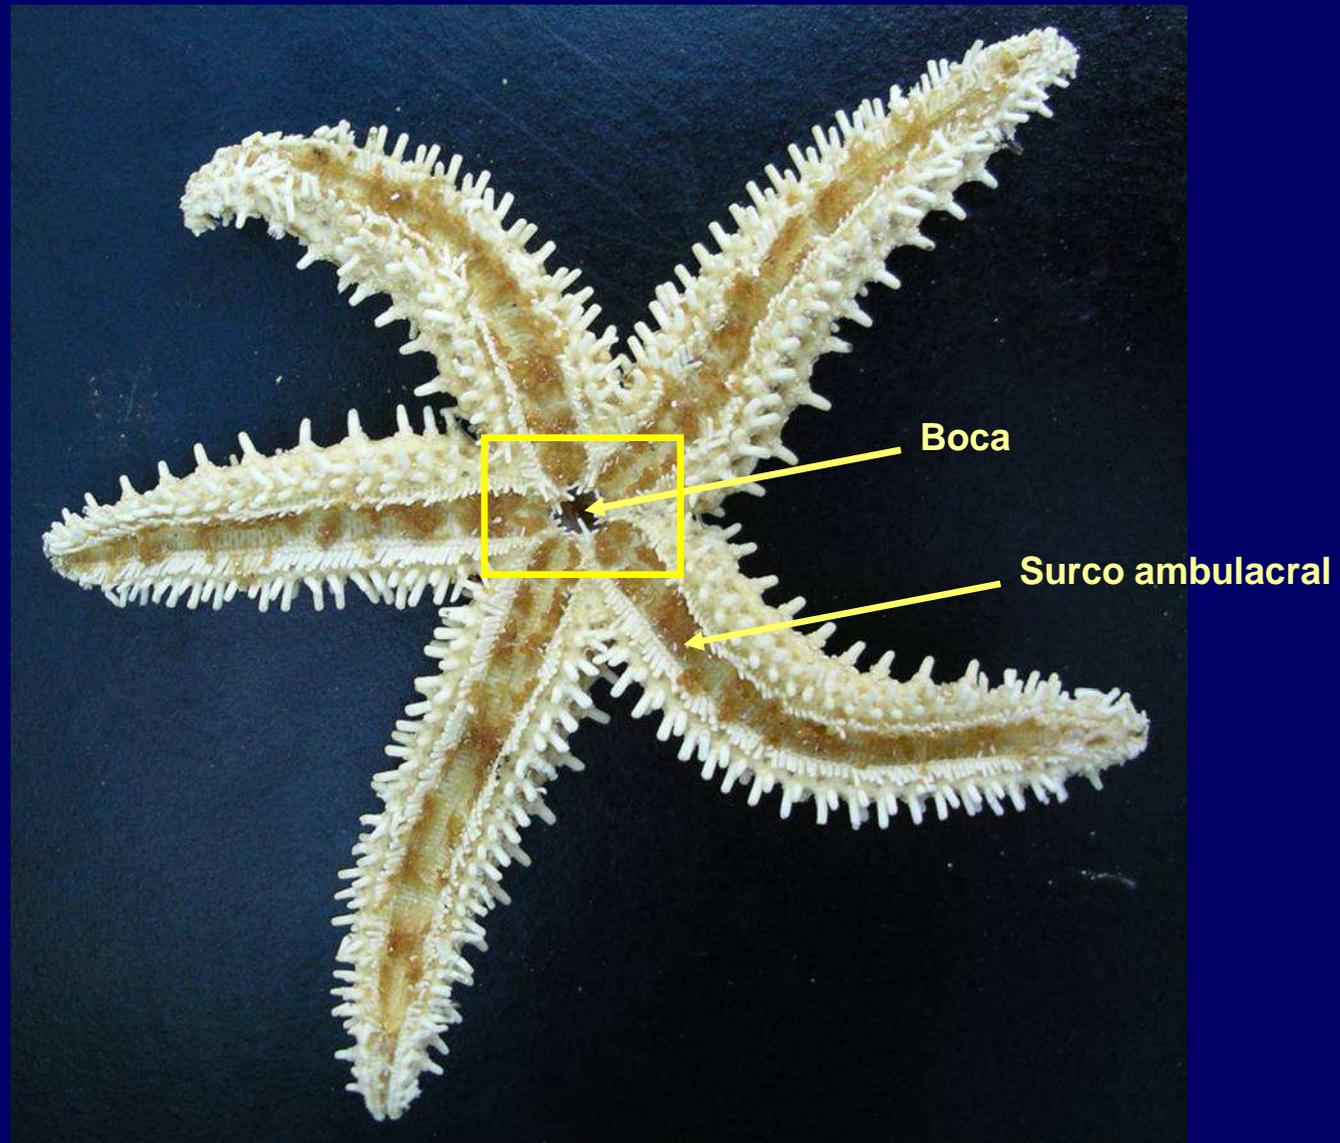

Asteroideos. Cara aboral de *Marthasterias* sp.

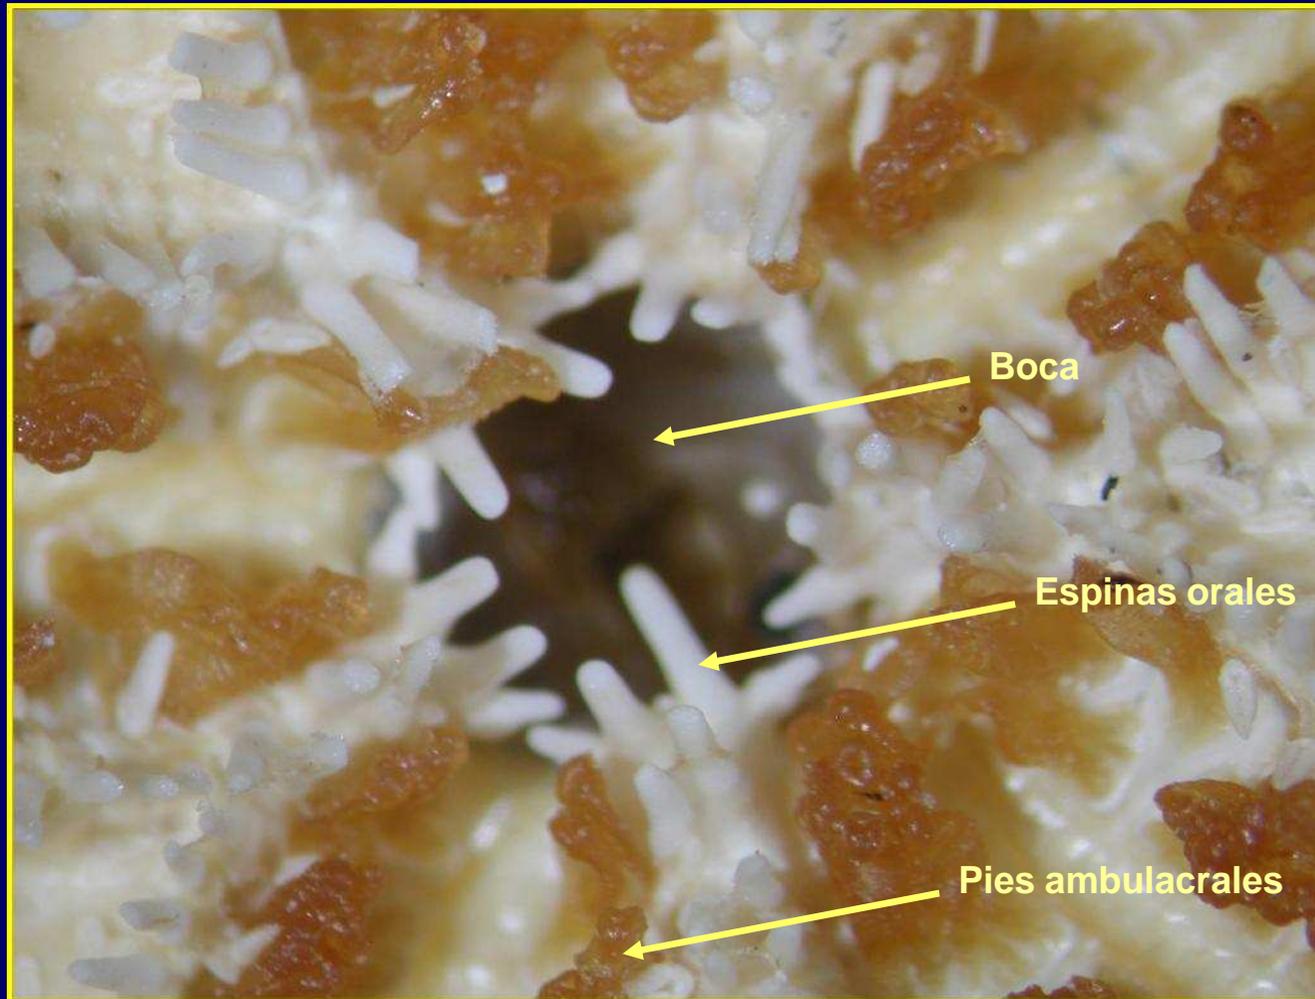

Marthasterias sp.: Detalle del madreporito

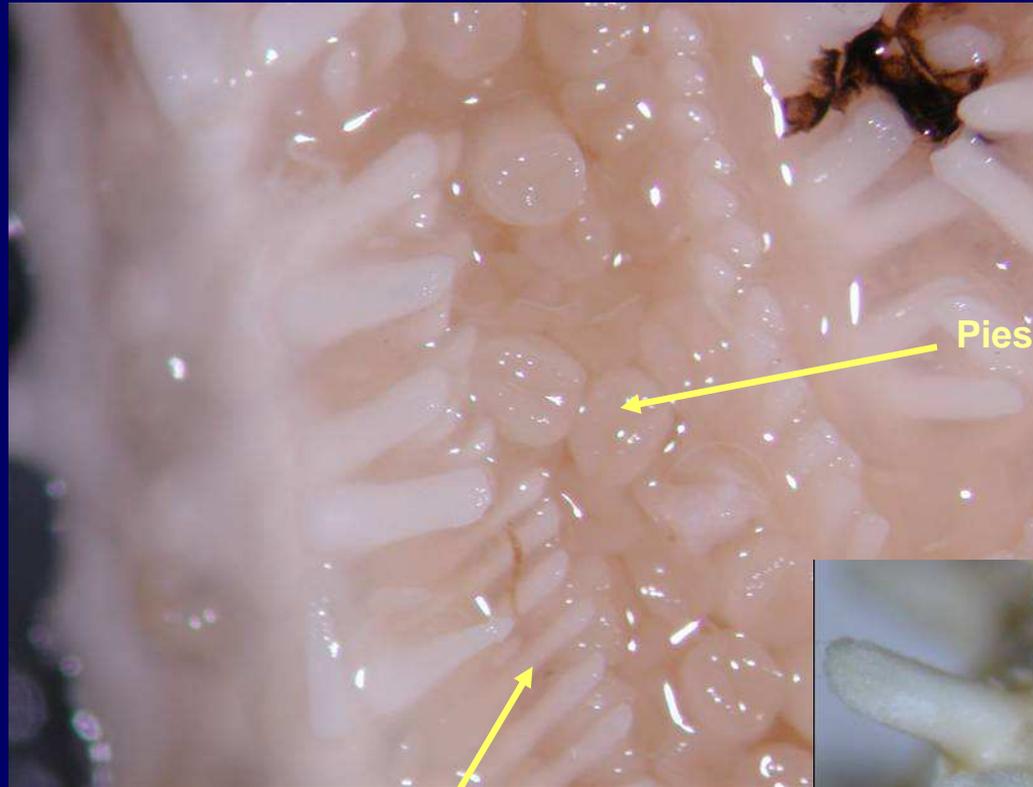

Marthasterias sp.: Detalle de las papulas

Asteroideos. Cara oral de *Marthasterias* sp.

Marthasterias sp.: Detalle de la boca

Ejemplar conservado en formol

Pies ambulacrales

Ejemplar conservado en seco

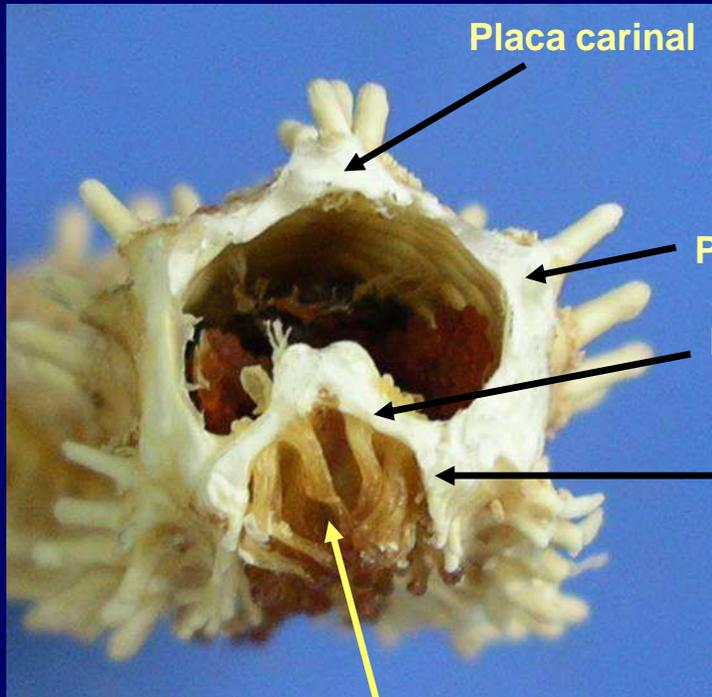

Espinas de las placas adambulacrales

Pies ambulacrales

Espinas de las placas adambulacrales

Marthasterias sp.: Detalle de los surcos ambulacrales

Placa carinal

Placa marginal

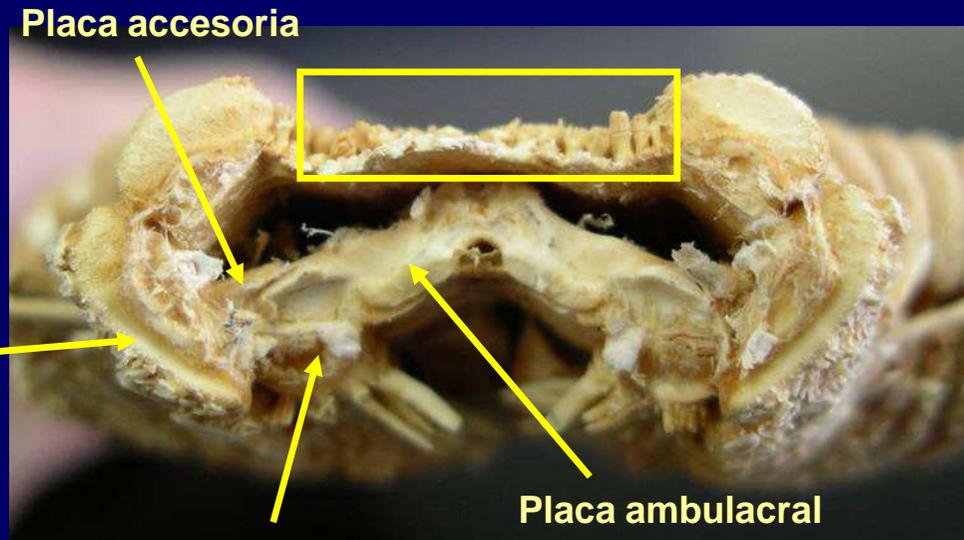

Placa ambulacral

Placa adambulacral

Pies ambulacrales

Marthasterias sp.: Sección de brazo

Astropecten sp.: Sección de brazo

Placa accesoria

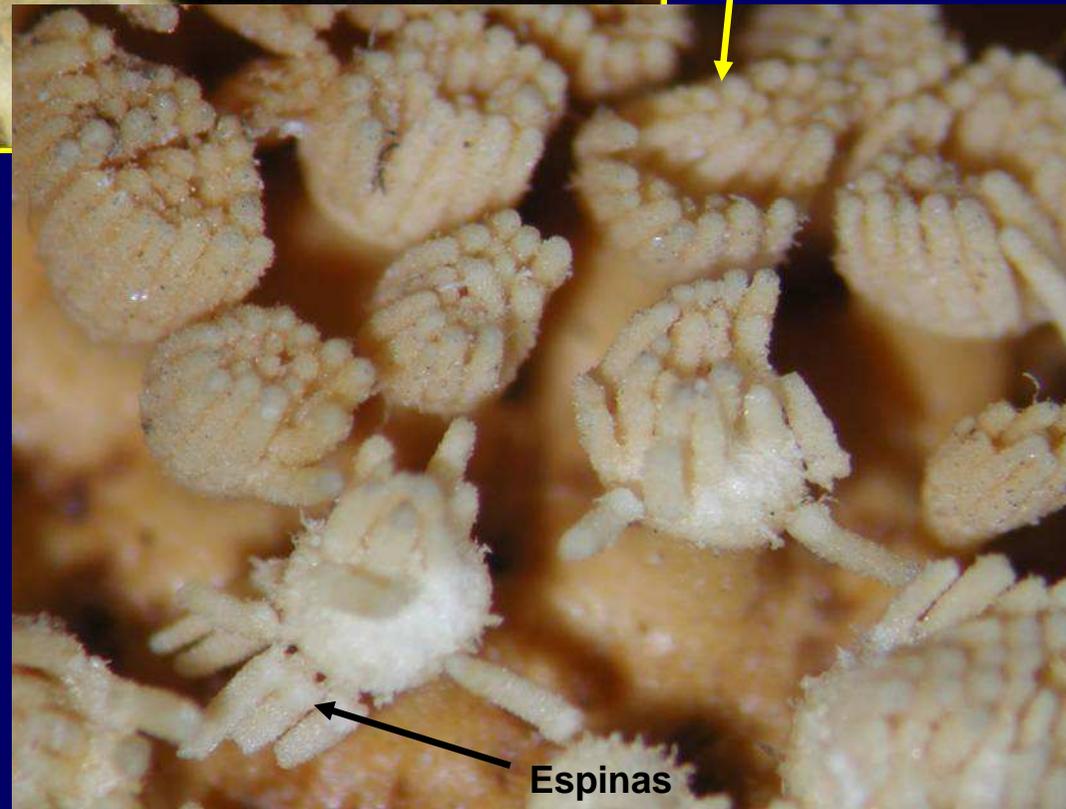

Placa marginal

Placa ambulacral

Placa adambulacral

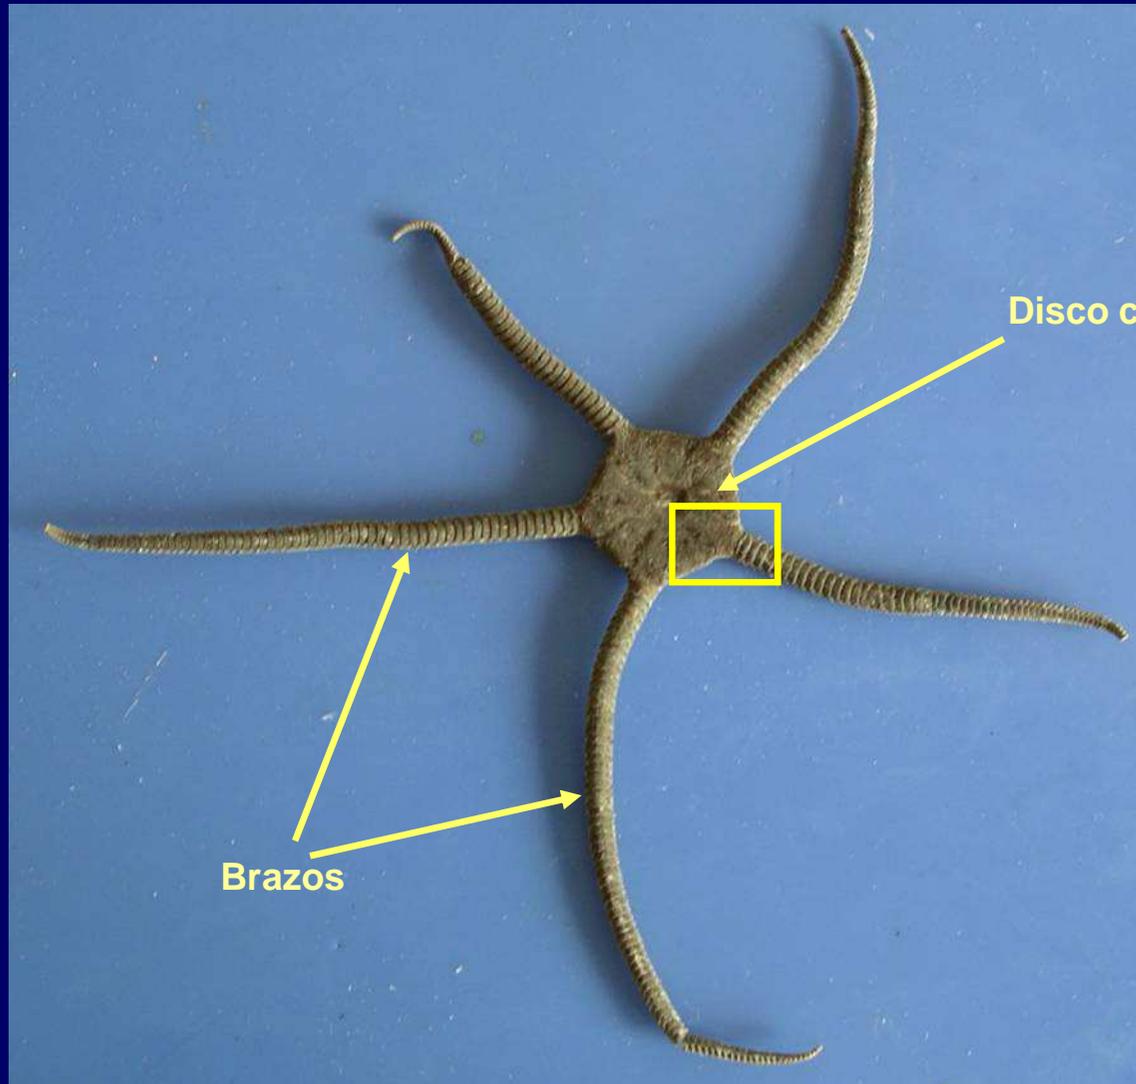

Paxilas

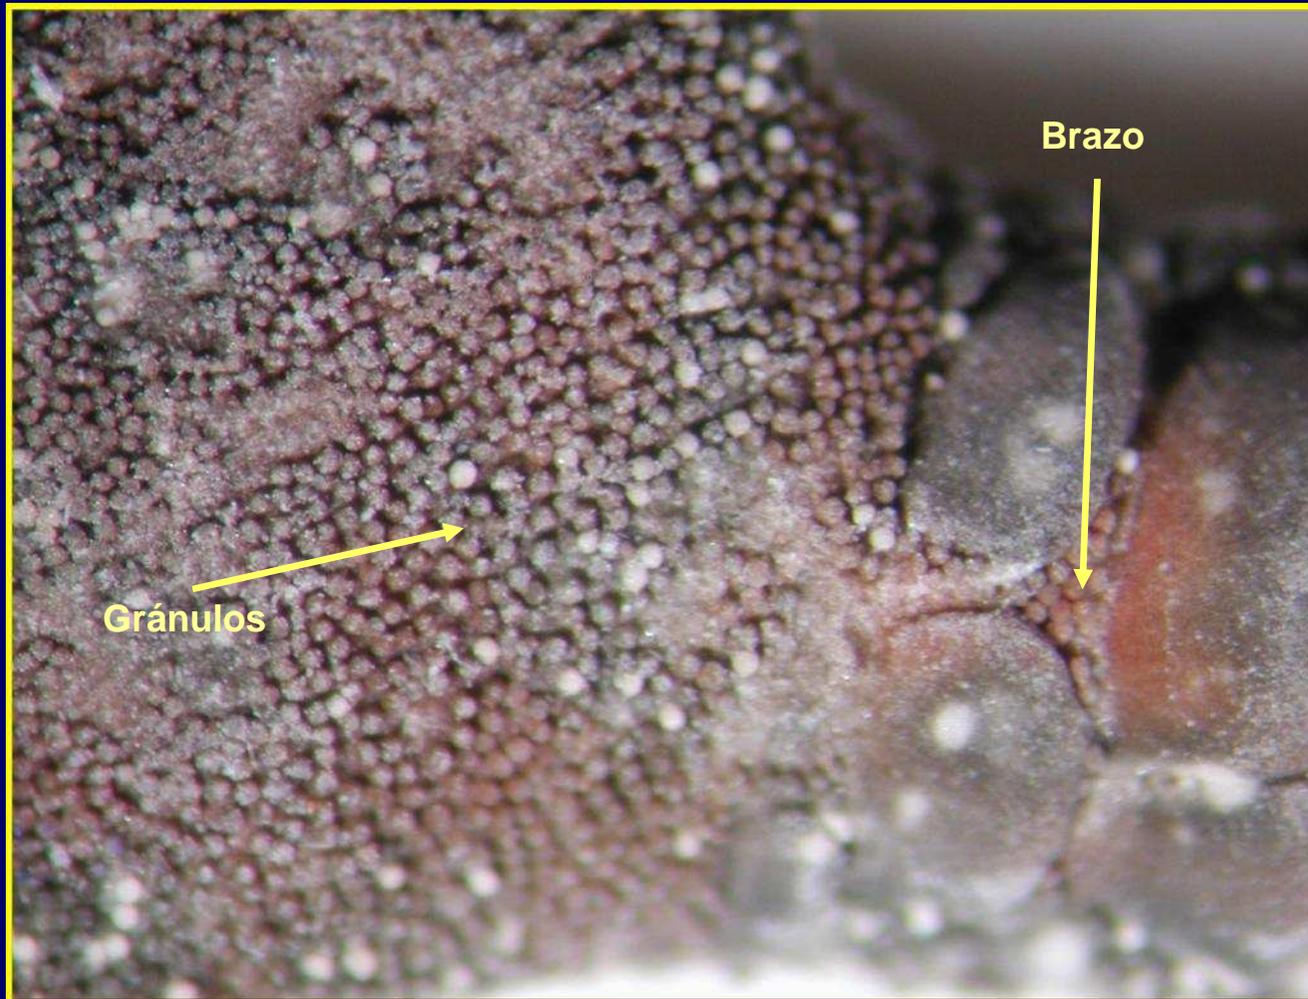

Espinas

Astropecten sp.: Detalle de las paxilas

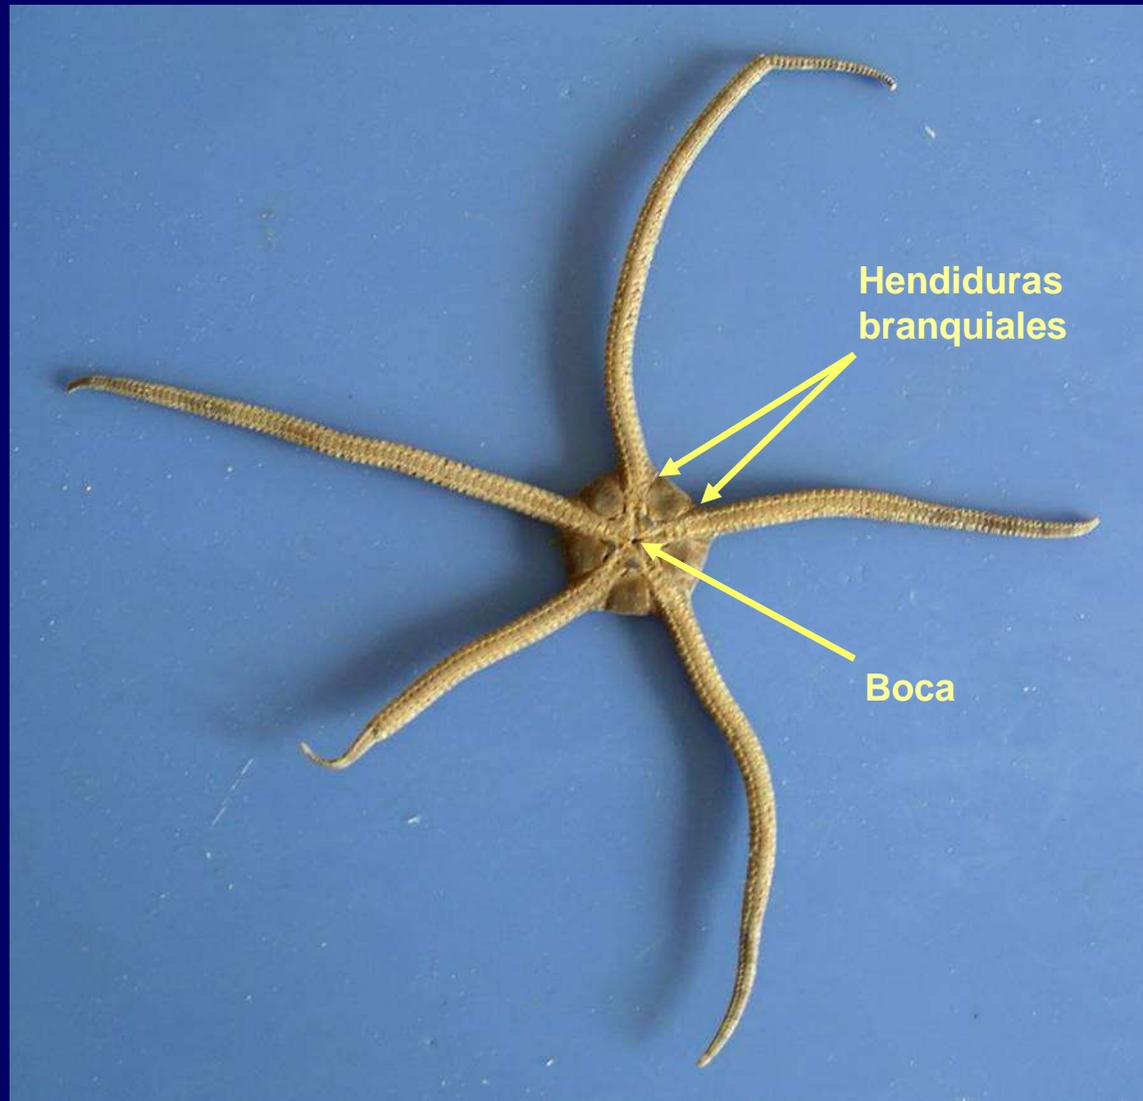

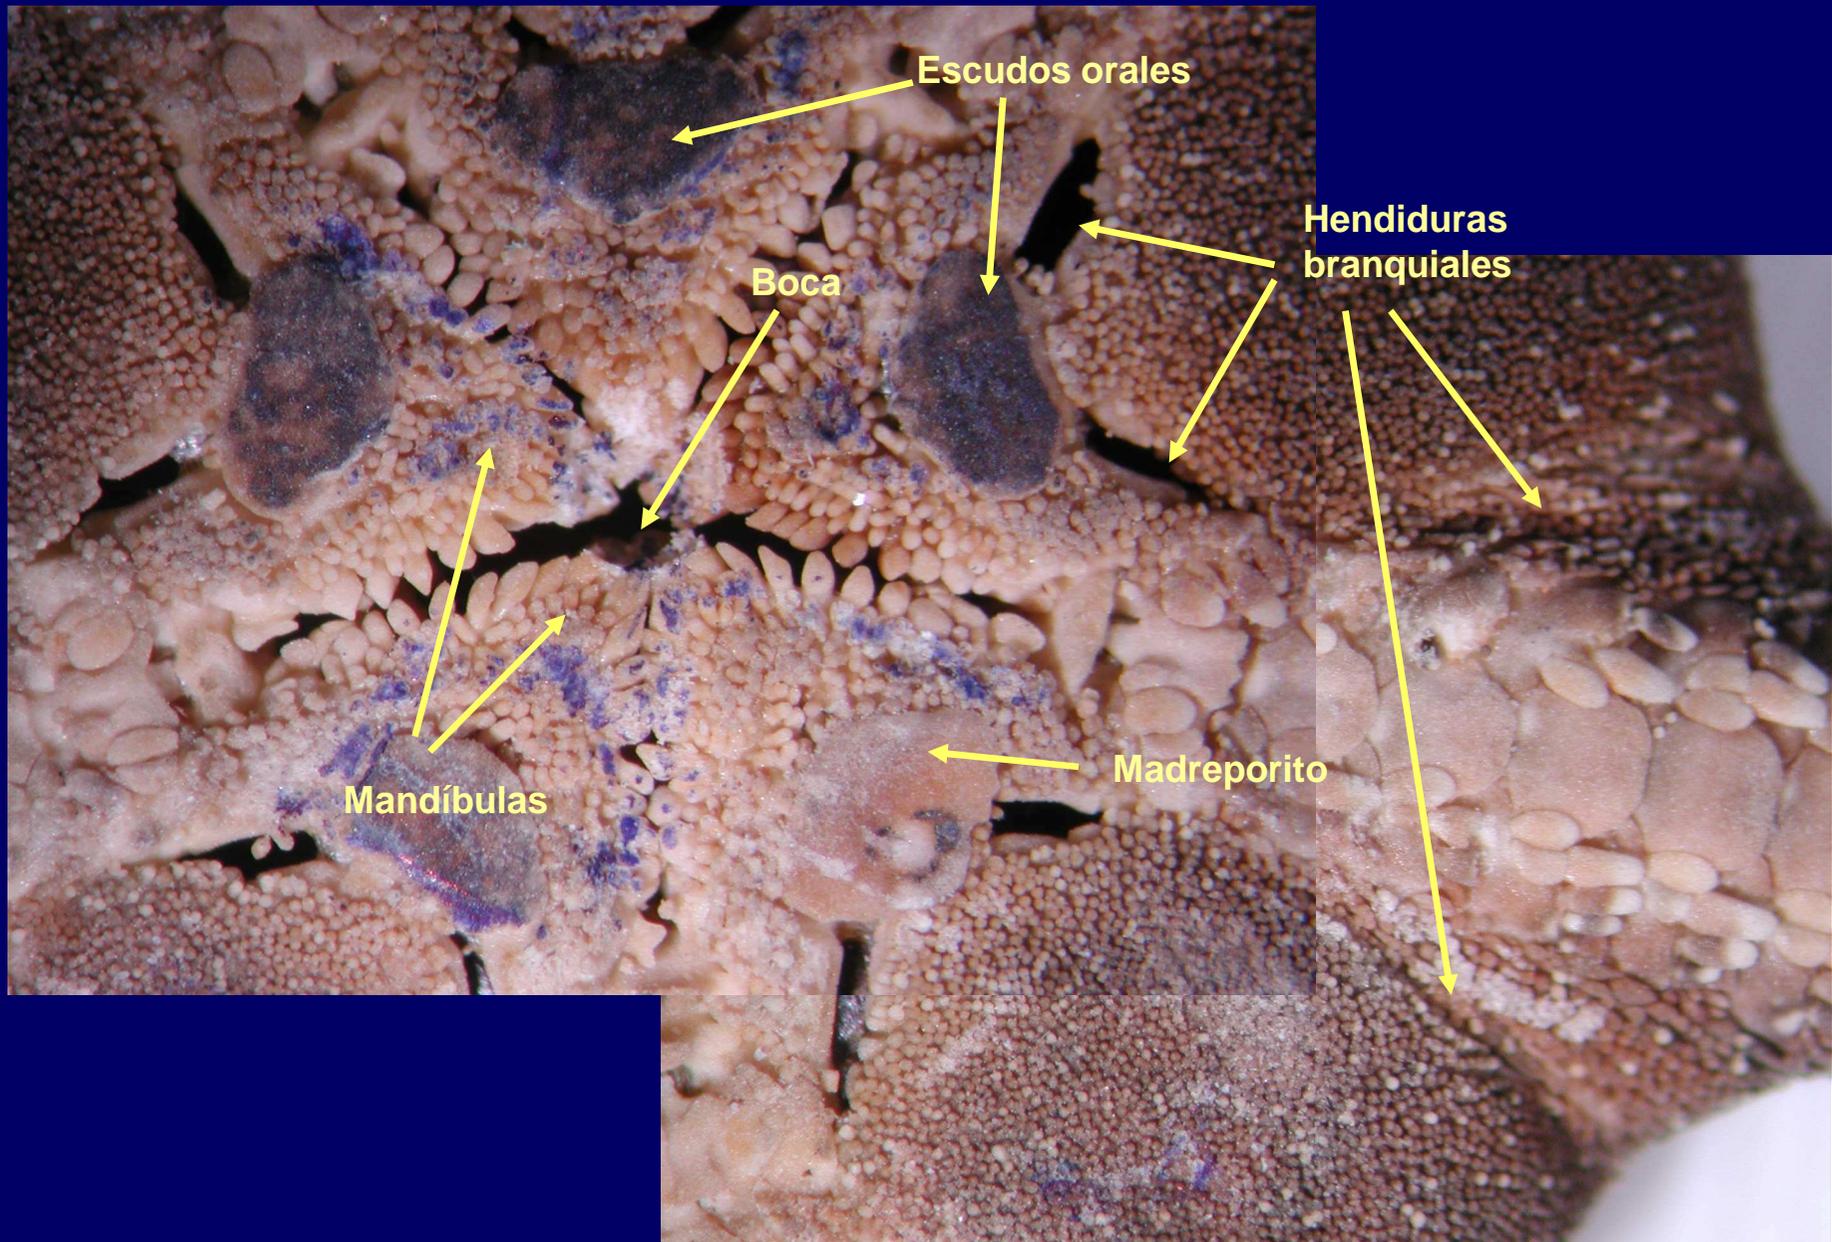

Ofiuroideos. Cara aboral de *Ophioderma* sp.

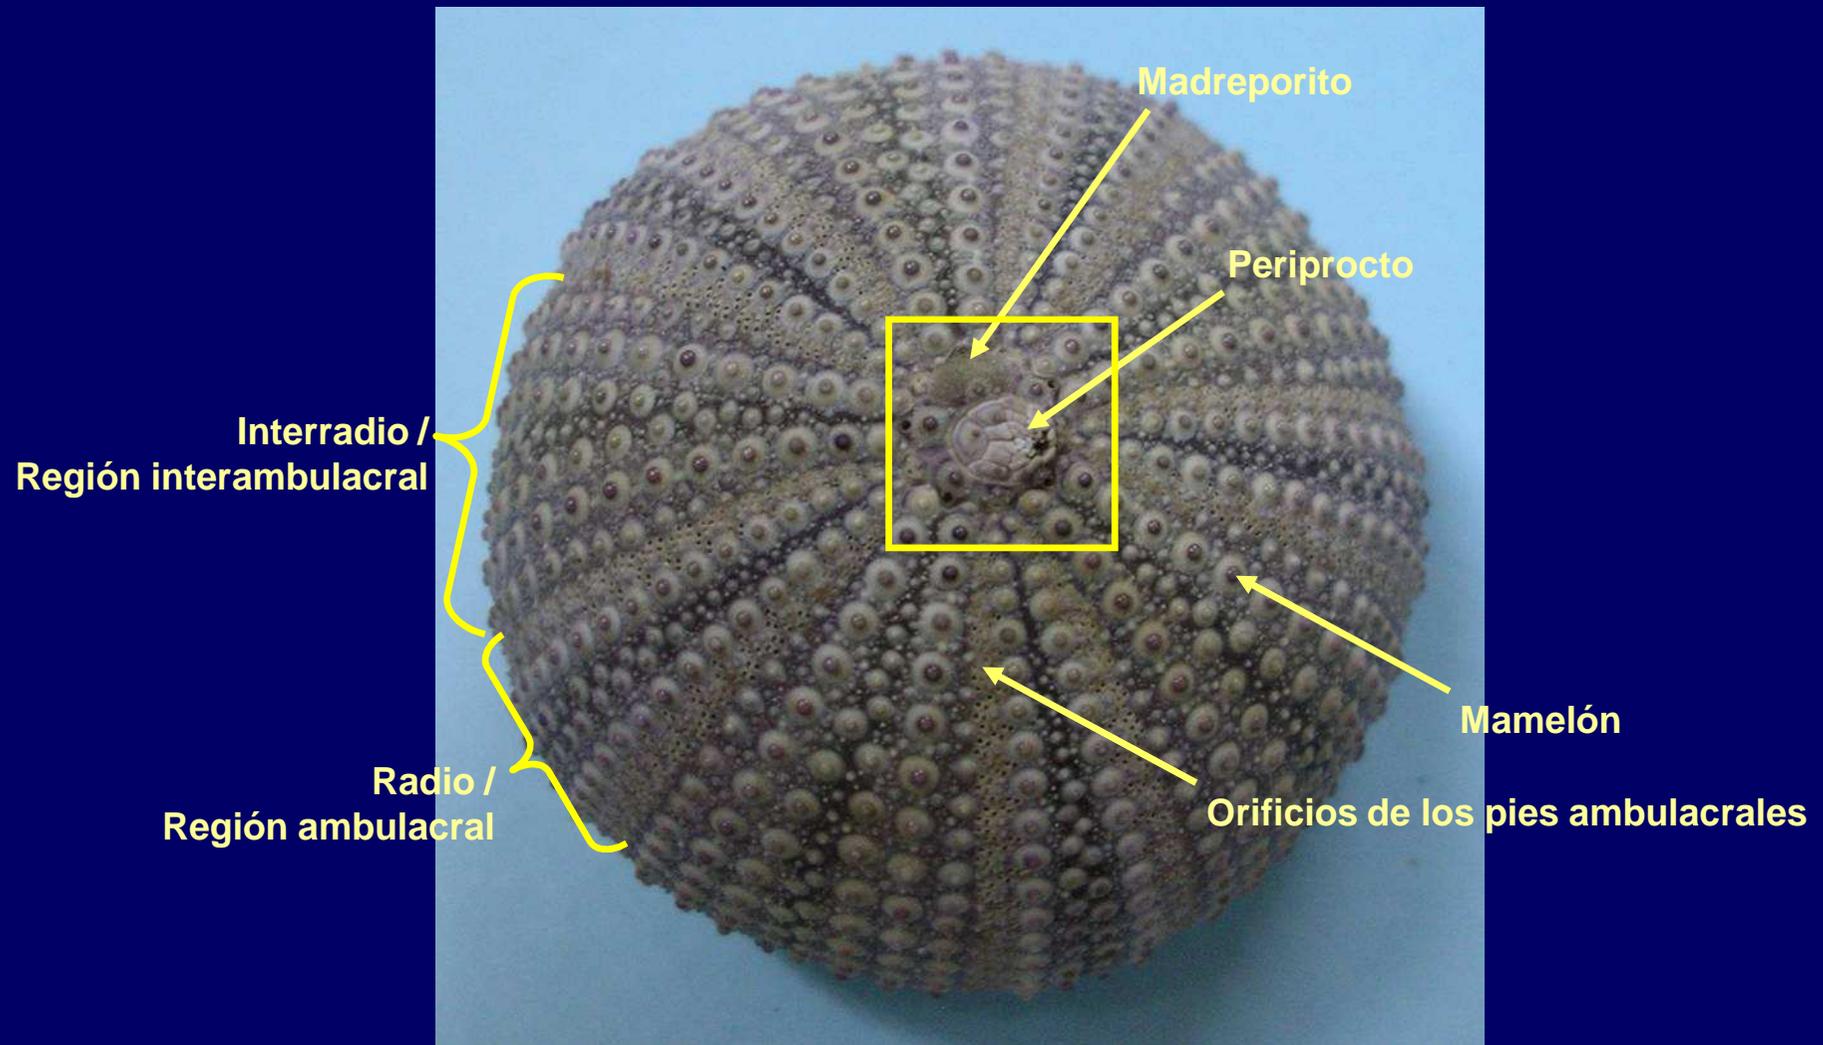

Detalle de gránulos aborales. *Ophioderma* sp.

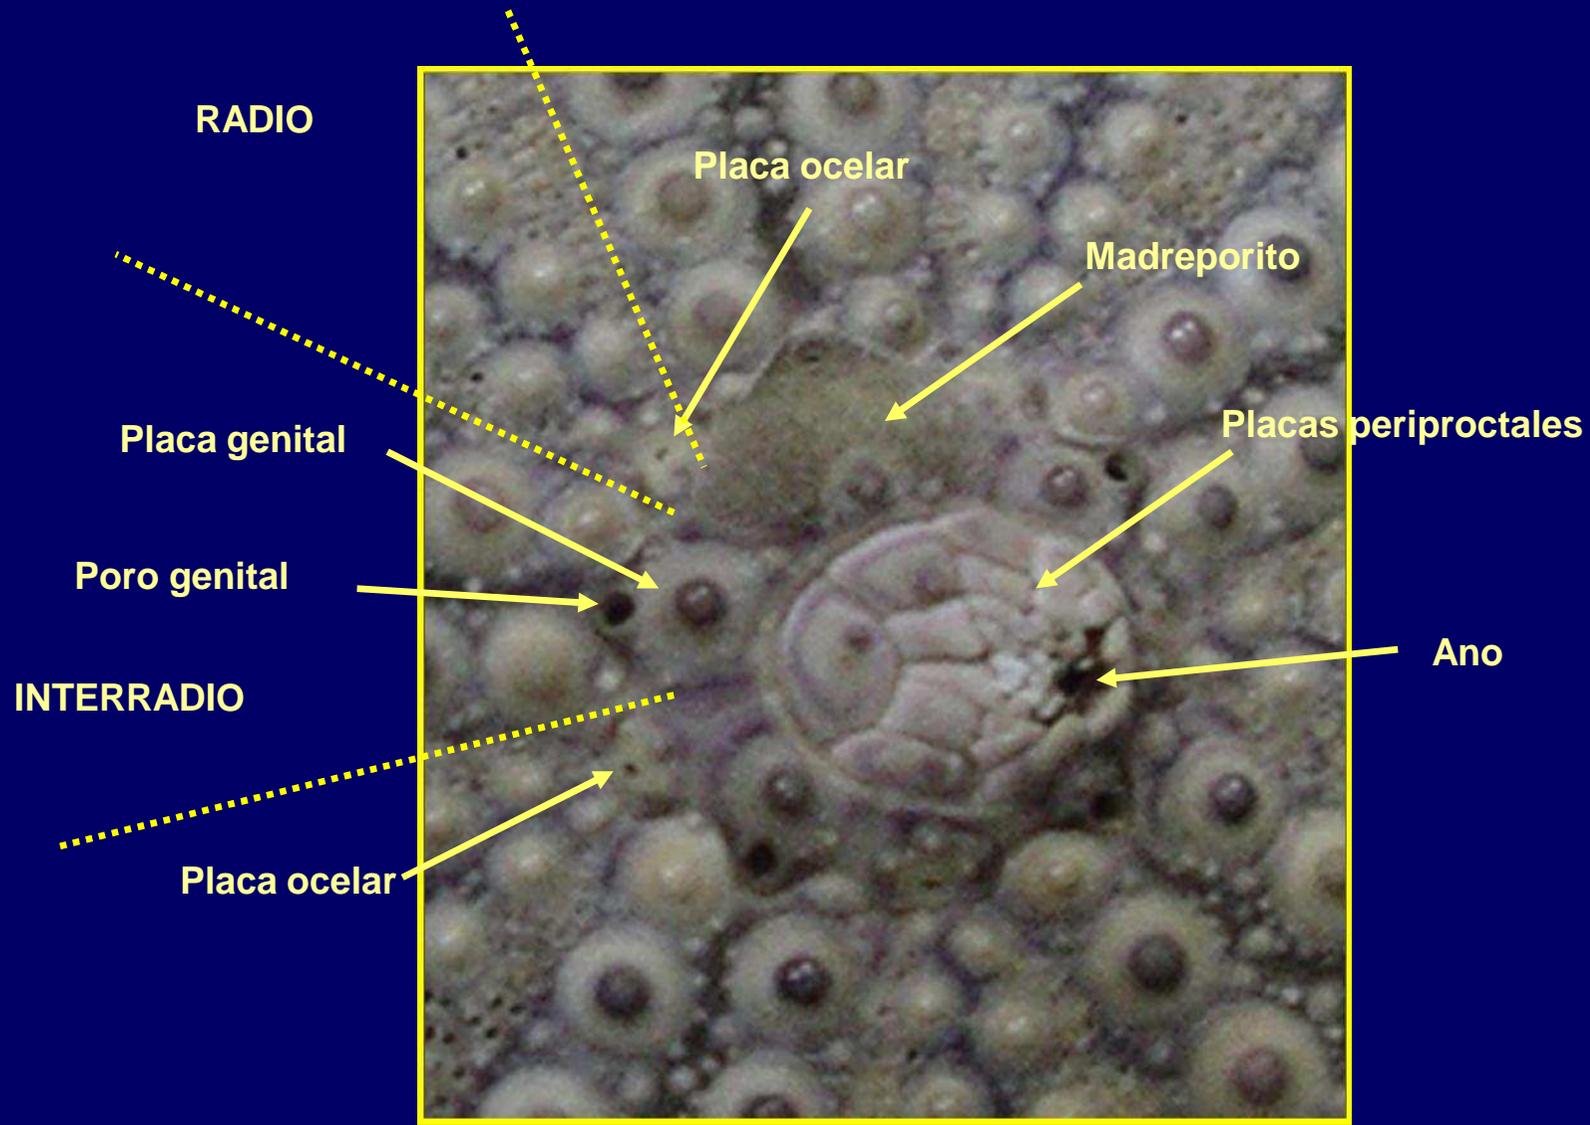

Cara oral de *Ophioderma* sp.

Cara oral de *Ophioderma* sp.

Equinideos regulares. Cara aboral de *Sphaerechinus* sp.

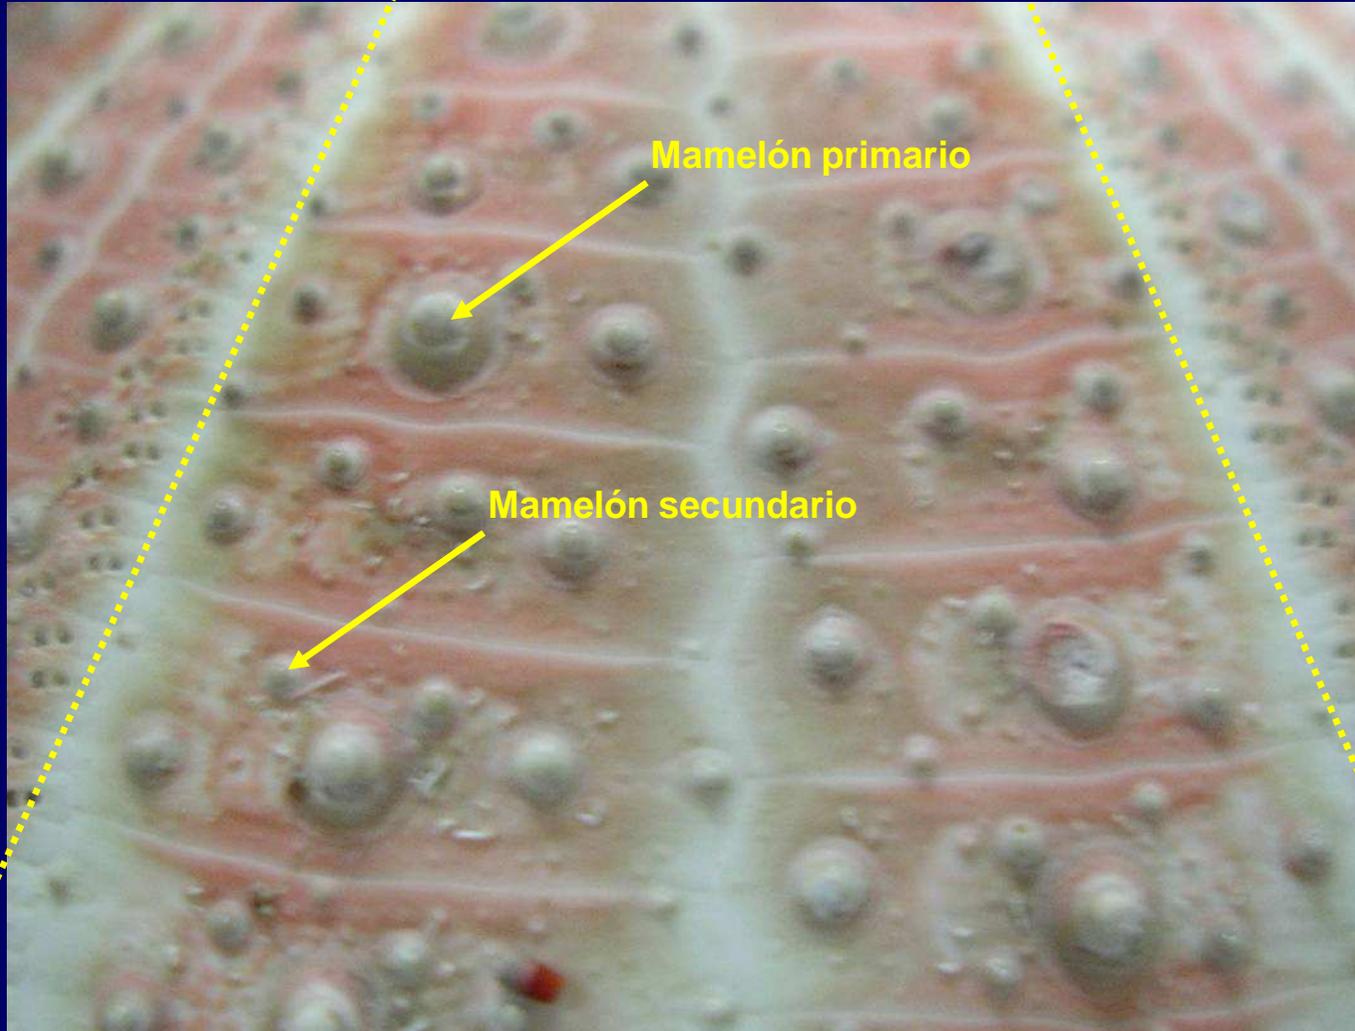

Sphaerechinus sp. Detalle de la región aboral

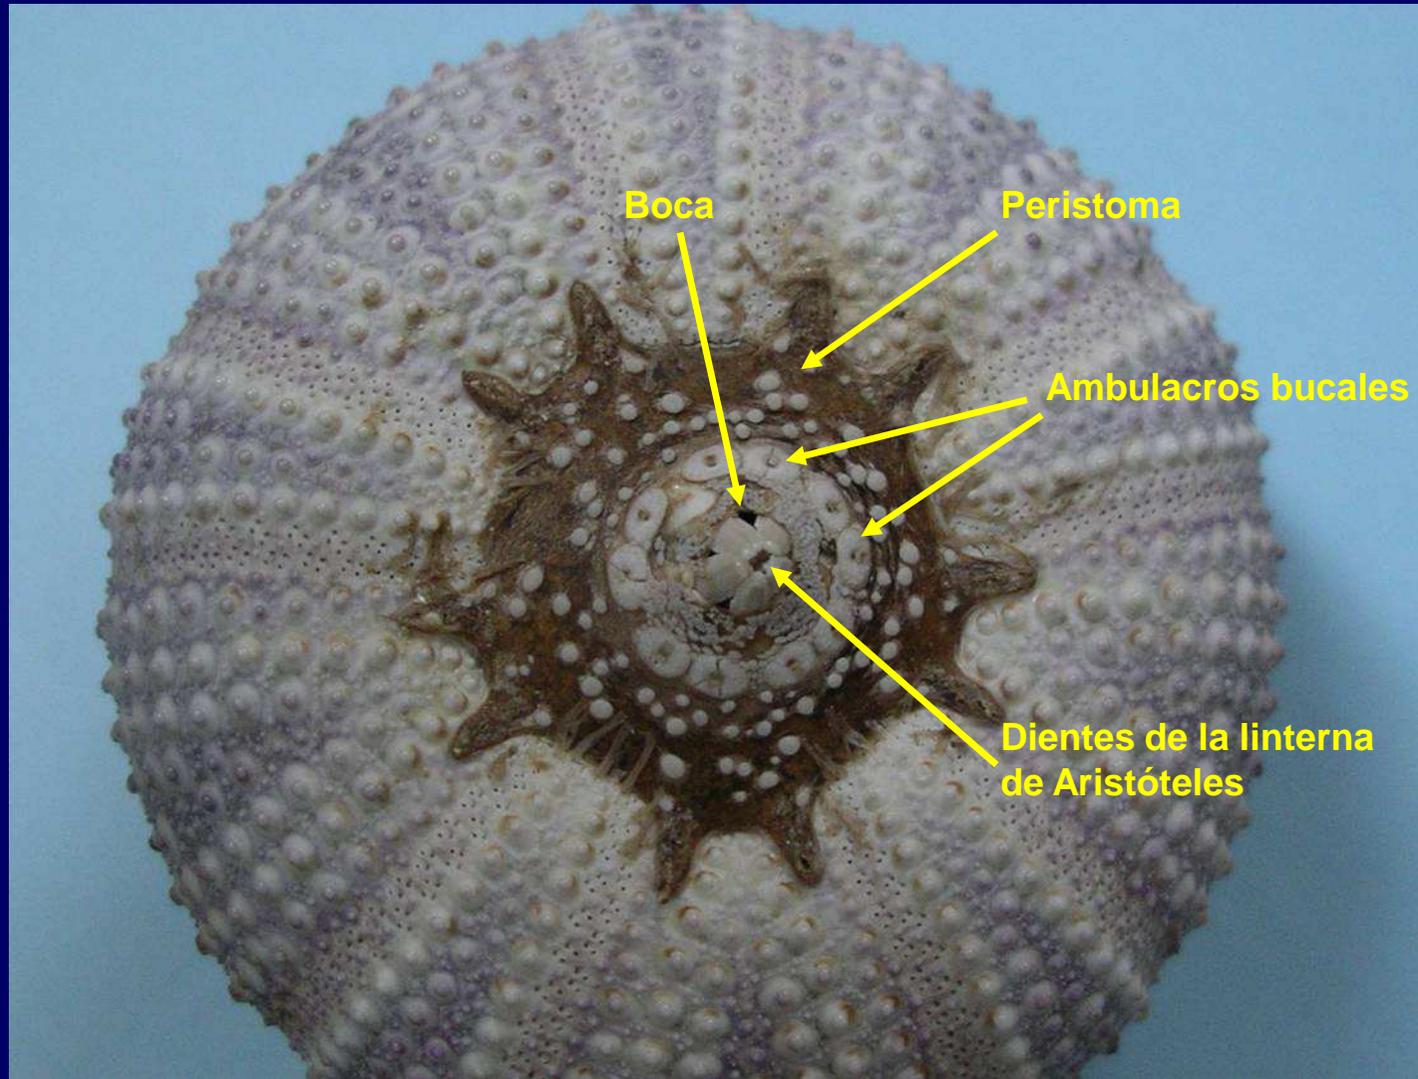

Orificios de los pies ambulacrales

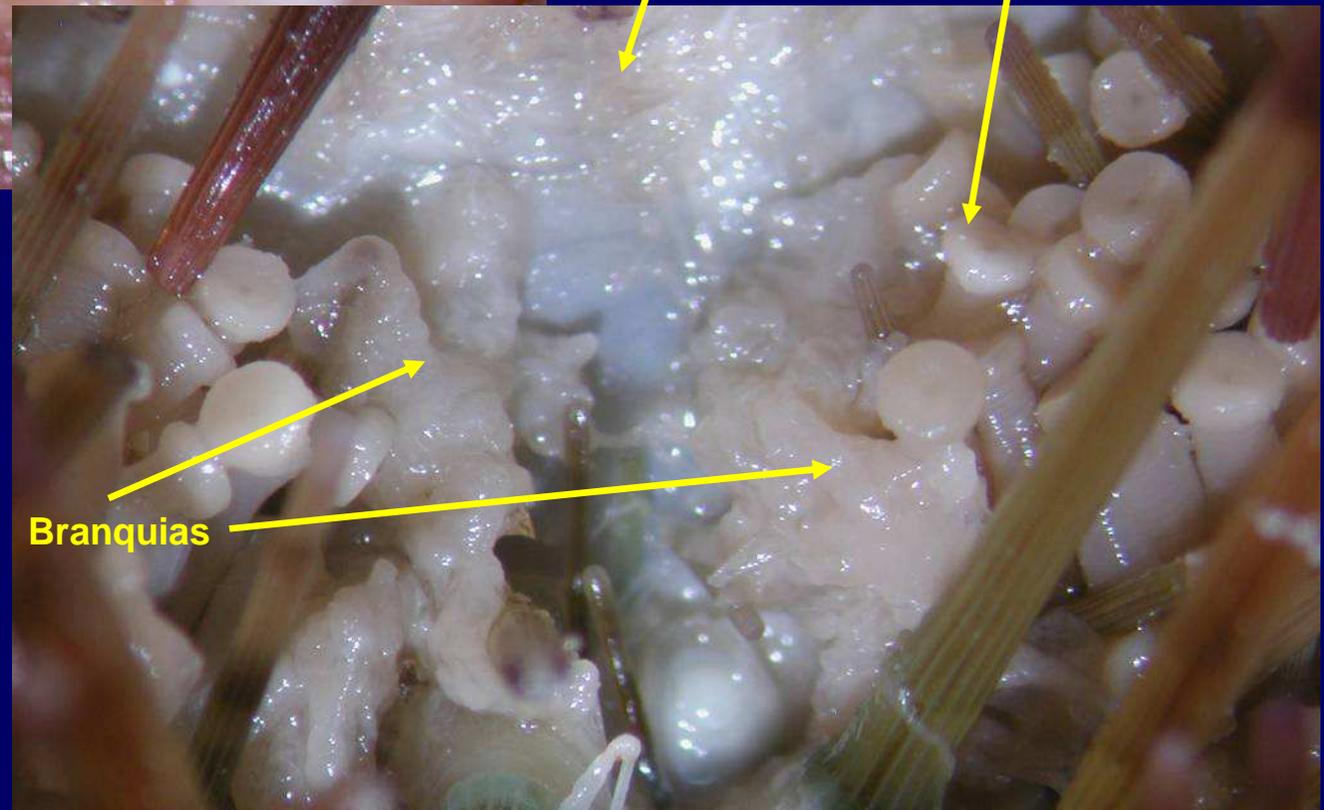

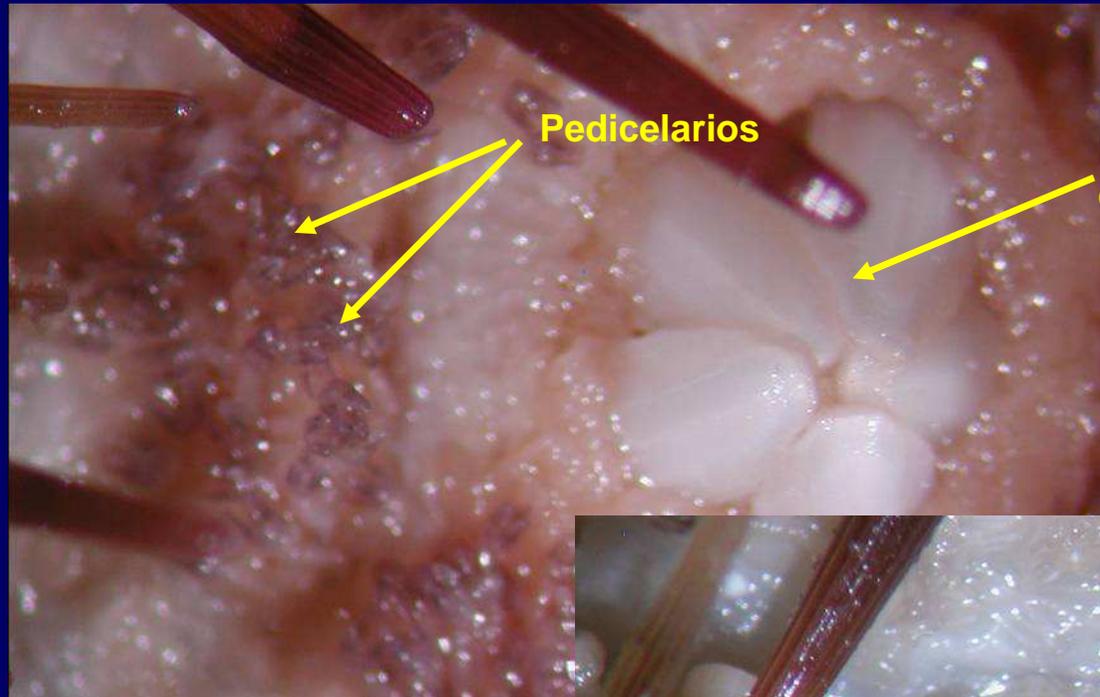

Equinideo regular. Área ambulacral

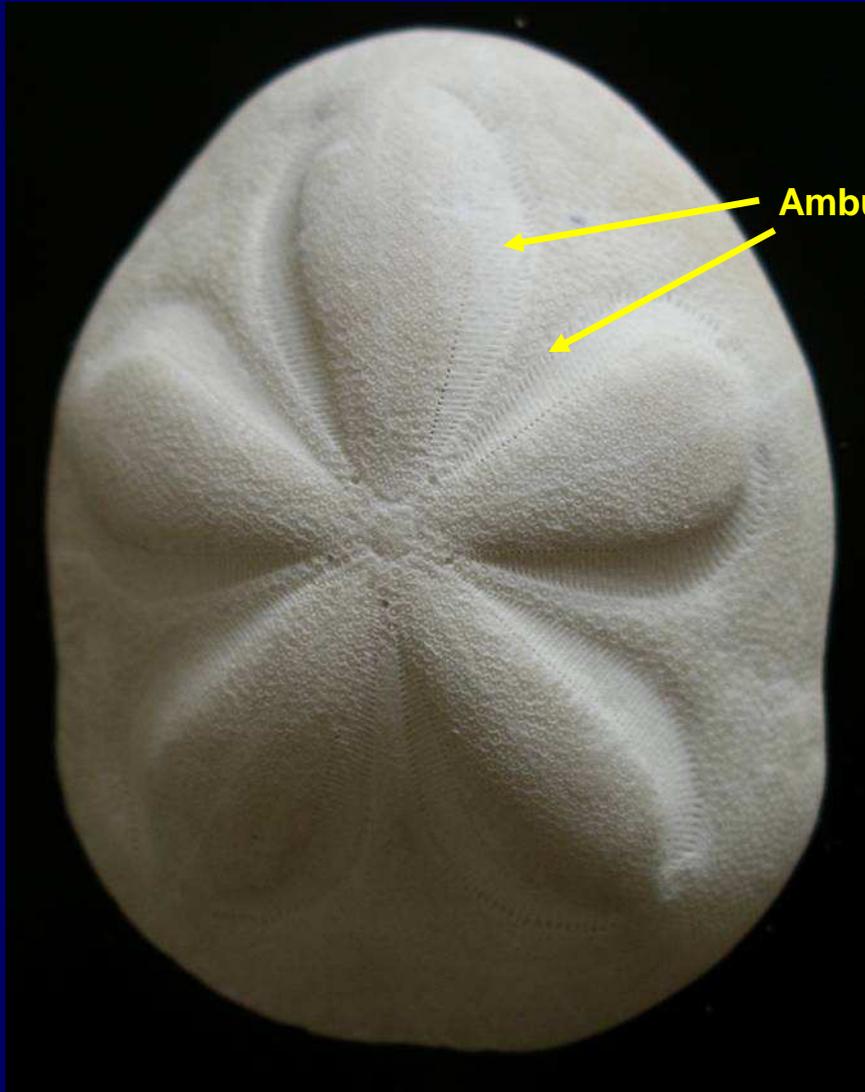

Equinideo regular. Área interambulacral

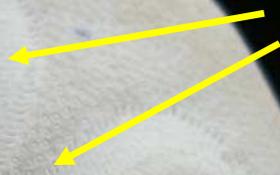

Cara oral de *Sphaerechinus* sp.

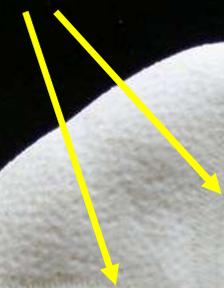

Clypeaster sp.

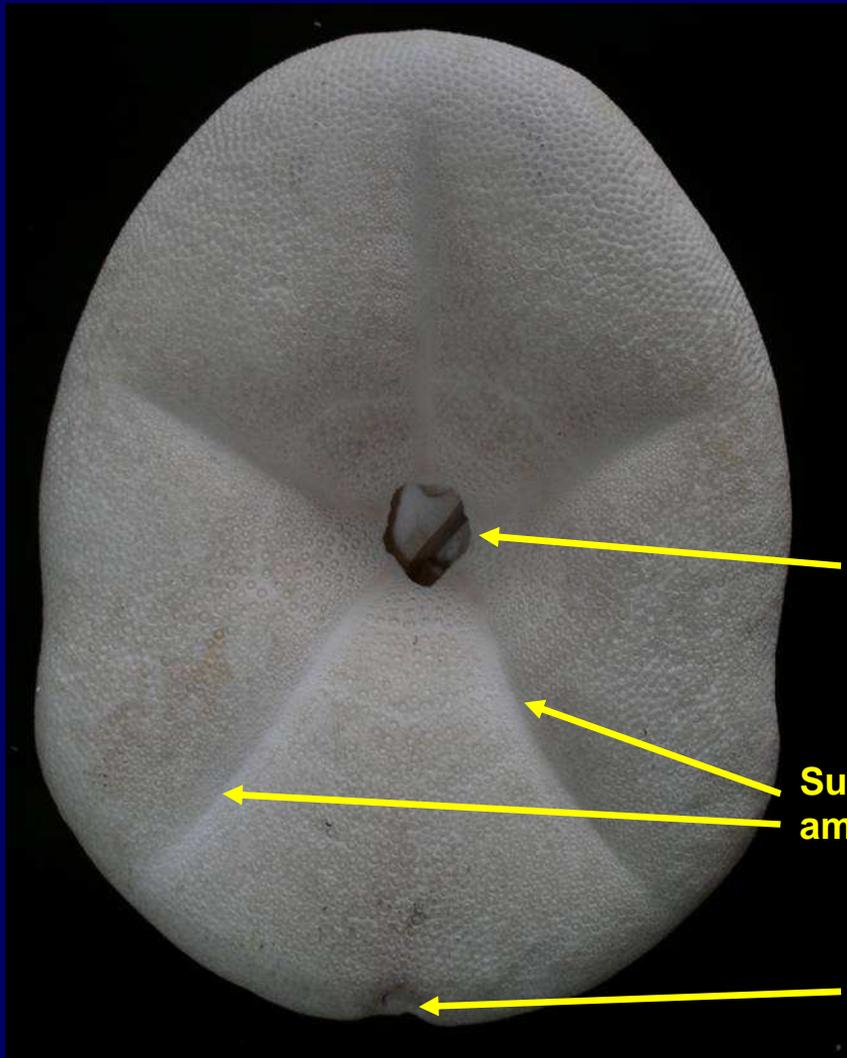

Ambulacros petaloideos

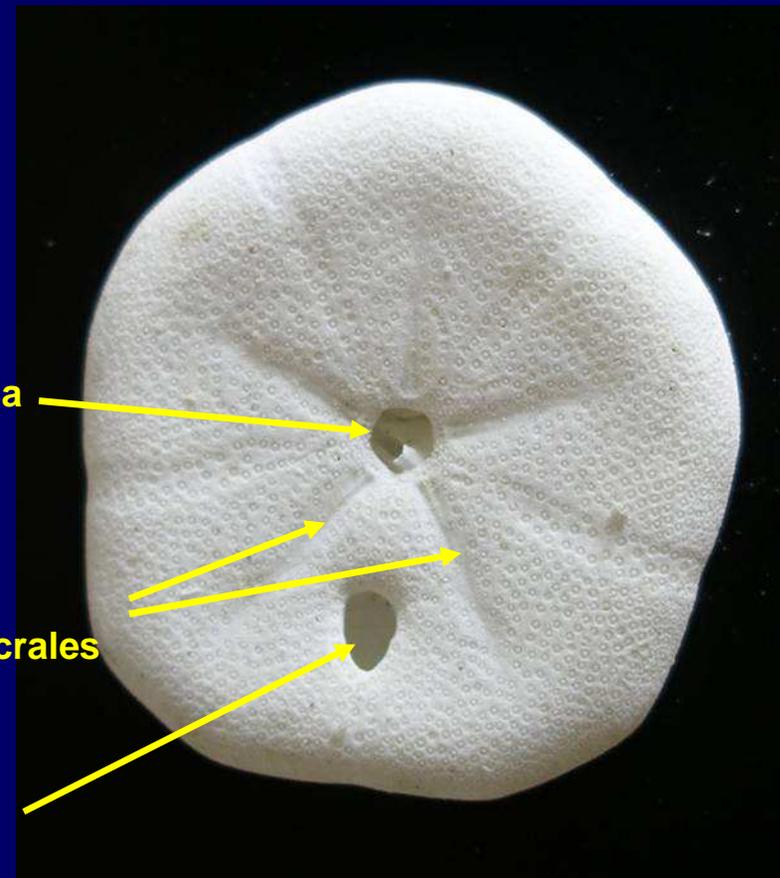

Laganum sp.

Equinideos irregulares. Cara aboral

Clypeaster sp.

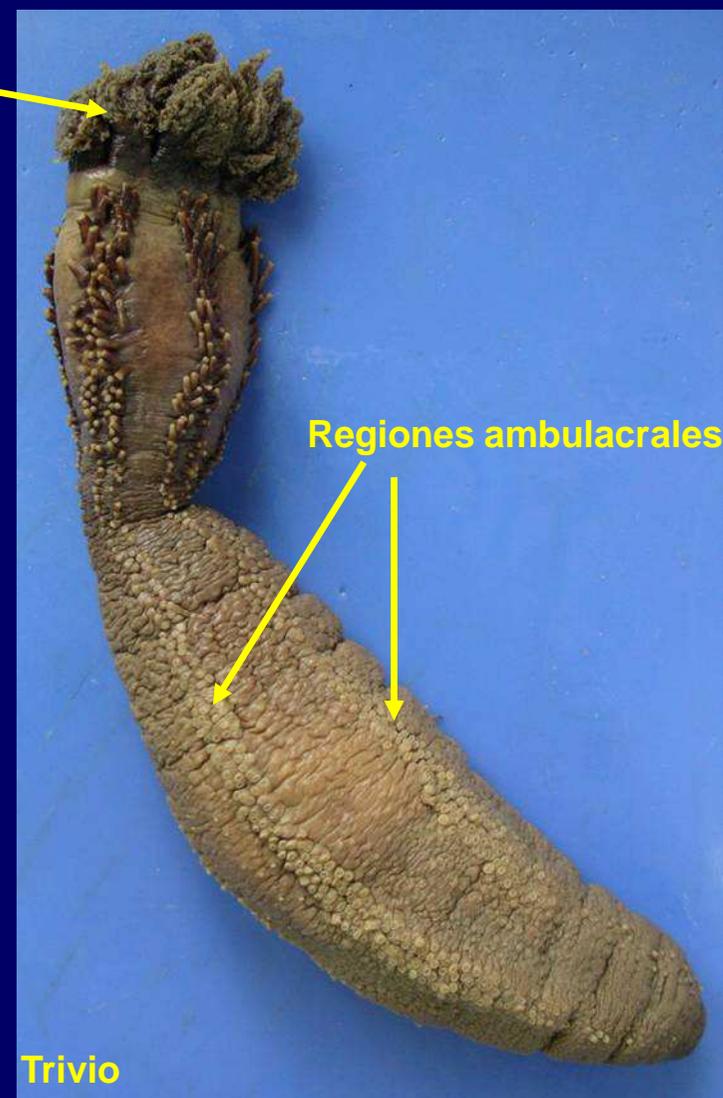

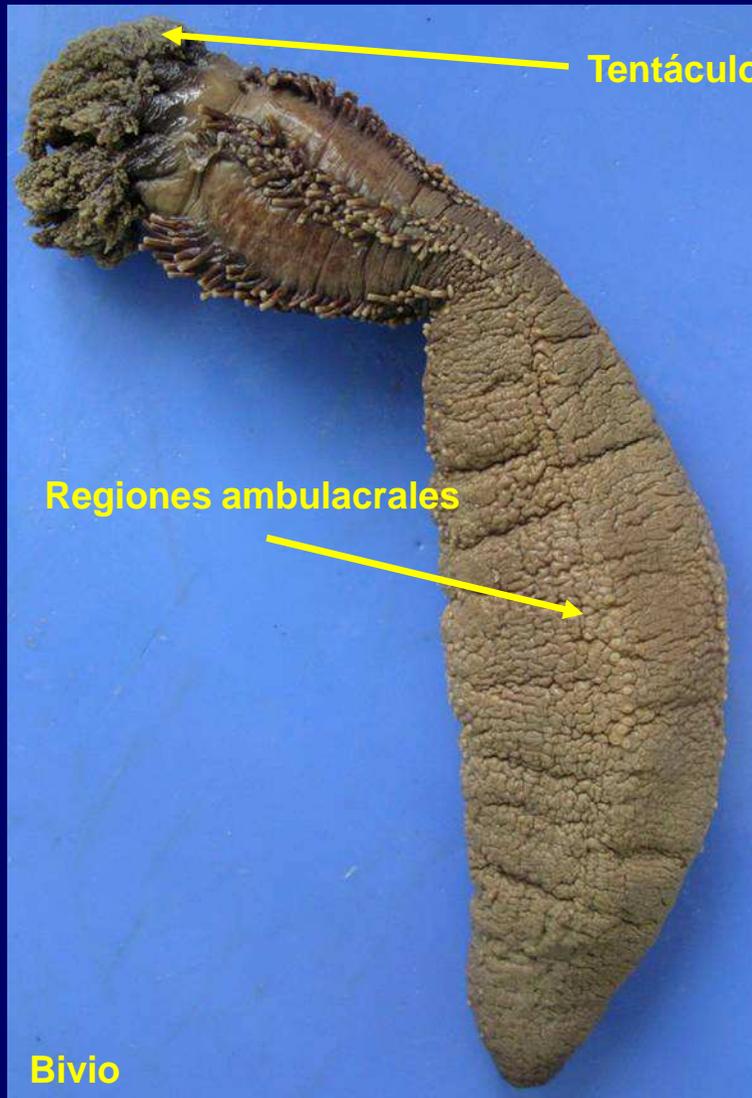

Laganum sp.

Boca

Surcos ambulacrales

Ano

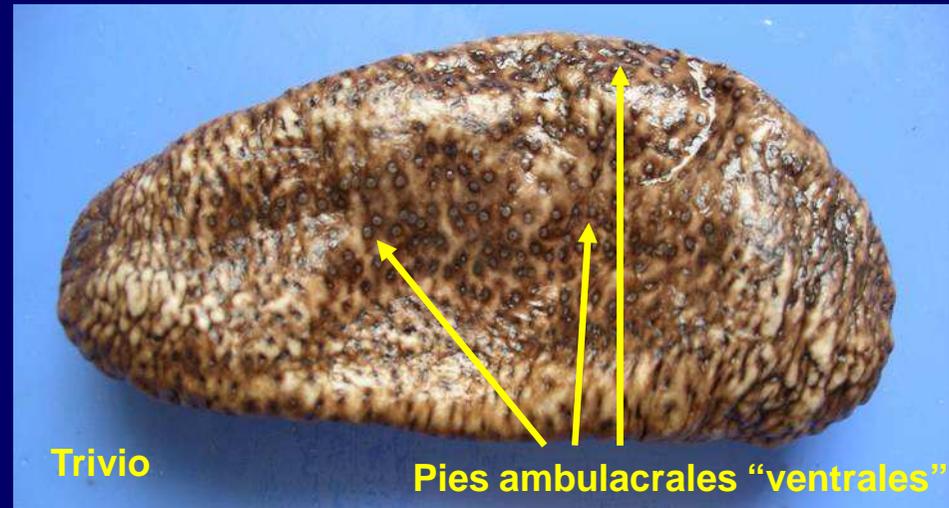

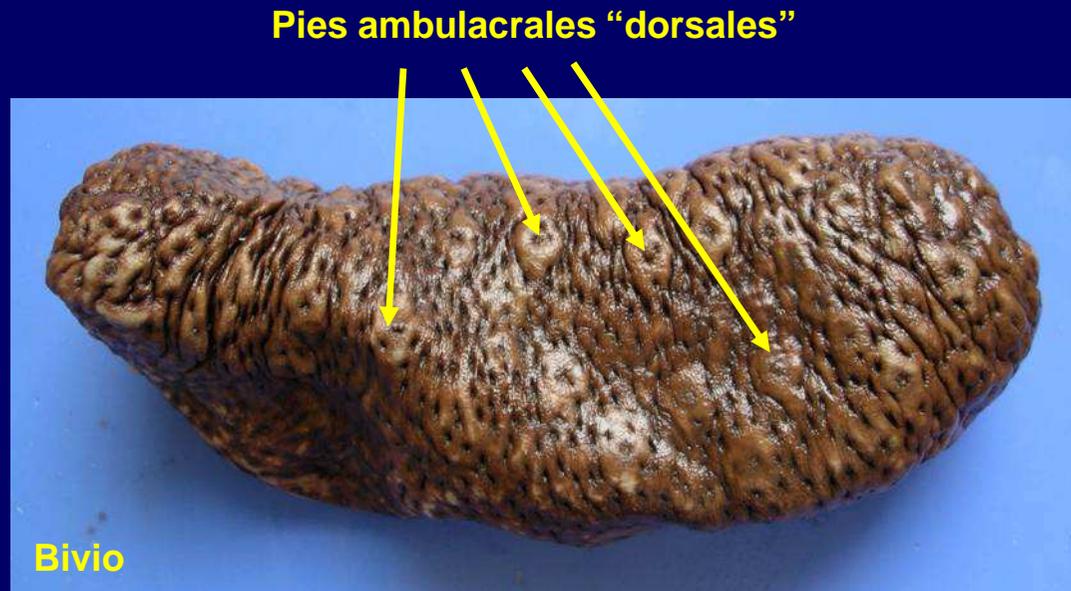

Equinideos irregulares. Cara oral

Holoturoideos. *Cucumaria* sp.

Holoturoideos. Escleritos

Holoturoideos. *Holothuria* sp.
